INTERNAL PARTITIONS

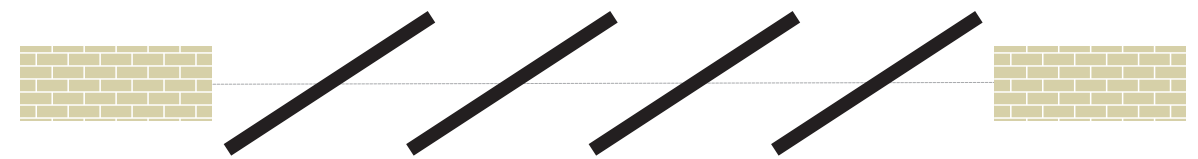

STYLE - MANY-FOLD

Effortless Flexibility. Seamless Integration.

The **Many-Fold Style Partition** is a high-performance folding wall system designed to open and close wide spaces with maximum ease and minimal footprint. Combining functionality with visual elegance, this system allows multiple panels to fold and stack neatly to one or both sides creating fluid transitions between open and closed configurations.

Ideal for both residential and commercial environments, Many-Fold partitions offer dynamic space management without compromising aesthetics.

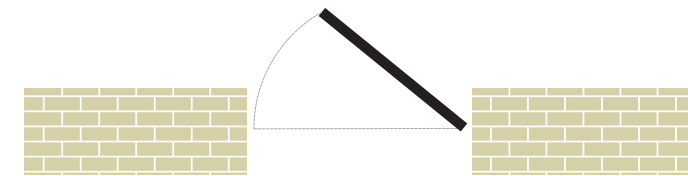

STYLE - PIVOT

Modern Elegance with Smooth Functionality

Transform your space with our **Pivot Partition**, designed for both style and performance. Unlike traditional doors, a pivot partition rotates on a central pivot point, creating a seamless and modern entryway that feels effortless to operate.

Perfect for luxury homes, offices, and commercial interiors, pivot partitions bring a sleek, contemporary aesthetic while maintaining durability and ease of use.

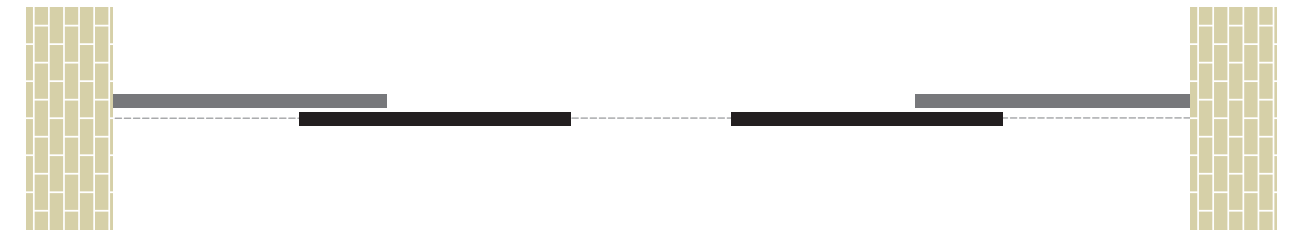

STYLE - PARTITION WITH SWING DOOR

Elegant Access with Effortless Style

Create a seamless balance of function and design with our **Swing Door Partitions**. Designed for smooth operation and timeless appeal, these partitions allow easy movement while dividing spaces with sophistication.

Crafted with premium glass, aluminium, and high-quality hardware, swing door partitions are perfect for homes, offices, and commercial interiors. They provide an open and airy feel, while ensuring durability, privacy, and modern aesthetics.

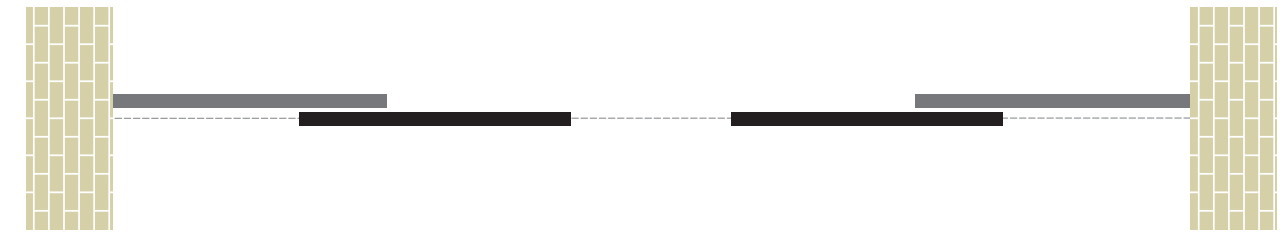

STYLE - SYNCHRO

Seamless Movement. Unified Elegance.

The **Synchro Partition** system is designed to transform open spaces with synchronized sliding panels that operate in perfect harmony. Engineered for flexibility and elegance, this system enables smooth, simultaneous movement of multiple panels with a single gesture-ensuring fast transitions between open-plan and private configurations.

The Synchro Partition system embodies a balance between functionality and aesthetics-ideal for dynamic environments that demand versatility, acoustic comfort, and refined design.

STYLE - SYNCHRO SOFT CLOSE

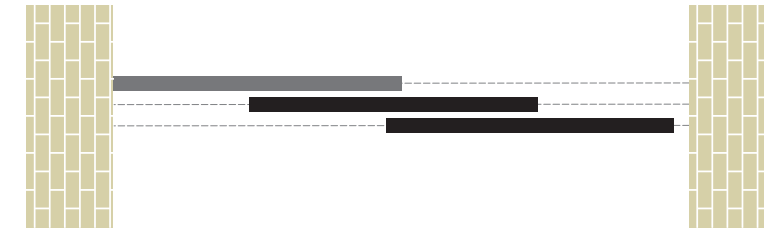

Elegance in Division. Comfort in Design.

The **Soft Style Partition** is a refined solution that redefines space separation with a gentle, sophisticated aesthetic.

Blending minimalism with warmth, it offers a perfect balance of transparency and privacy, ideal for modern interiors seeking comfort and elegance.

Crafted with soft tones, subtle textures, and clean lines, this partition complements various interior styles, from residential to corporate spaces. The Soft Style Partition isn't just a divider; it's a statement of timeless subtlety and thoughtful design.

STYLE - TELESCOPIC

Expanding Possibilities with Elegance

The **Telescopic Style Partition** is a dynamic solution that optimizes large openings with minimal space consumption.

Its multi-panel sliding system allows panels to neatly stack behind one another, enabling a wide, clear opening that adapts to various spatial requirements.

Engineered for flexibility, this partition system is ideal for creating open-plan environments or effortlessly dividing large spaces when needed, all while maintaining a sleek, architectural aesthetic. Whether maximizing daylight, enhancing spatial flow, or defining flexible layouts, the telescopic style partition brings sophistication and performance into perfect alignment.

STYLE - POCKET PARTITION

Smart Spaces. Seamless Living.

Maximize your interiors with **Pocket Style Partitions**, designed to slide effortlessly into concealed wall pockets. When open, they create a spacious, connected environment; when closed, they provide privacy and elegance without taking up extra room.

Perfect for modern homes, offices, and hospitality spaces, these partitions are the ultimate solution for space-saving luxury. Built with premium materials and smooth sliding systems, pocket partitions blend functionality with a clean, minimalist aesthetic.

STYLE - FIXED

Seamless Division. Lasting Elegance.

Our **Fixed Partition** offers a sophisticated solution for dividing spaces without compromising openness or design continuity. Ideal for both residential and commercial interiors, these non-movable panels are designed to define areas, allow natural light flow, and maintain visual connectivity between spaces.

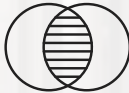

Crafted from premium materials such as aluminum, glass, and wood, fixed partitions are tailored to fit a variety of design aesthetics—from minimal and modern to bold and industrial. Whether used in office layouts, living areas, or hospitality environments, they provide structure with style.

SHOWER ENCLOSURES

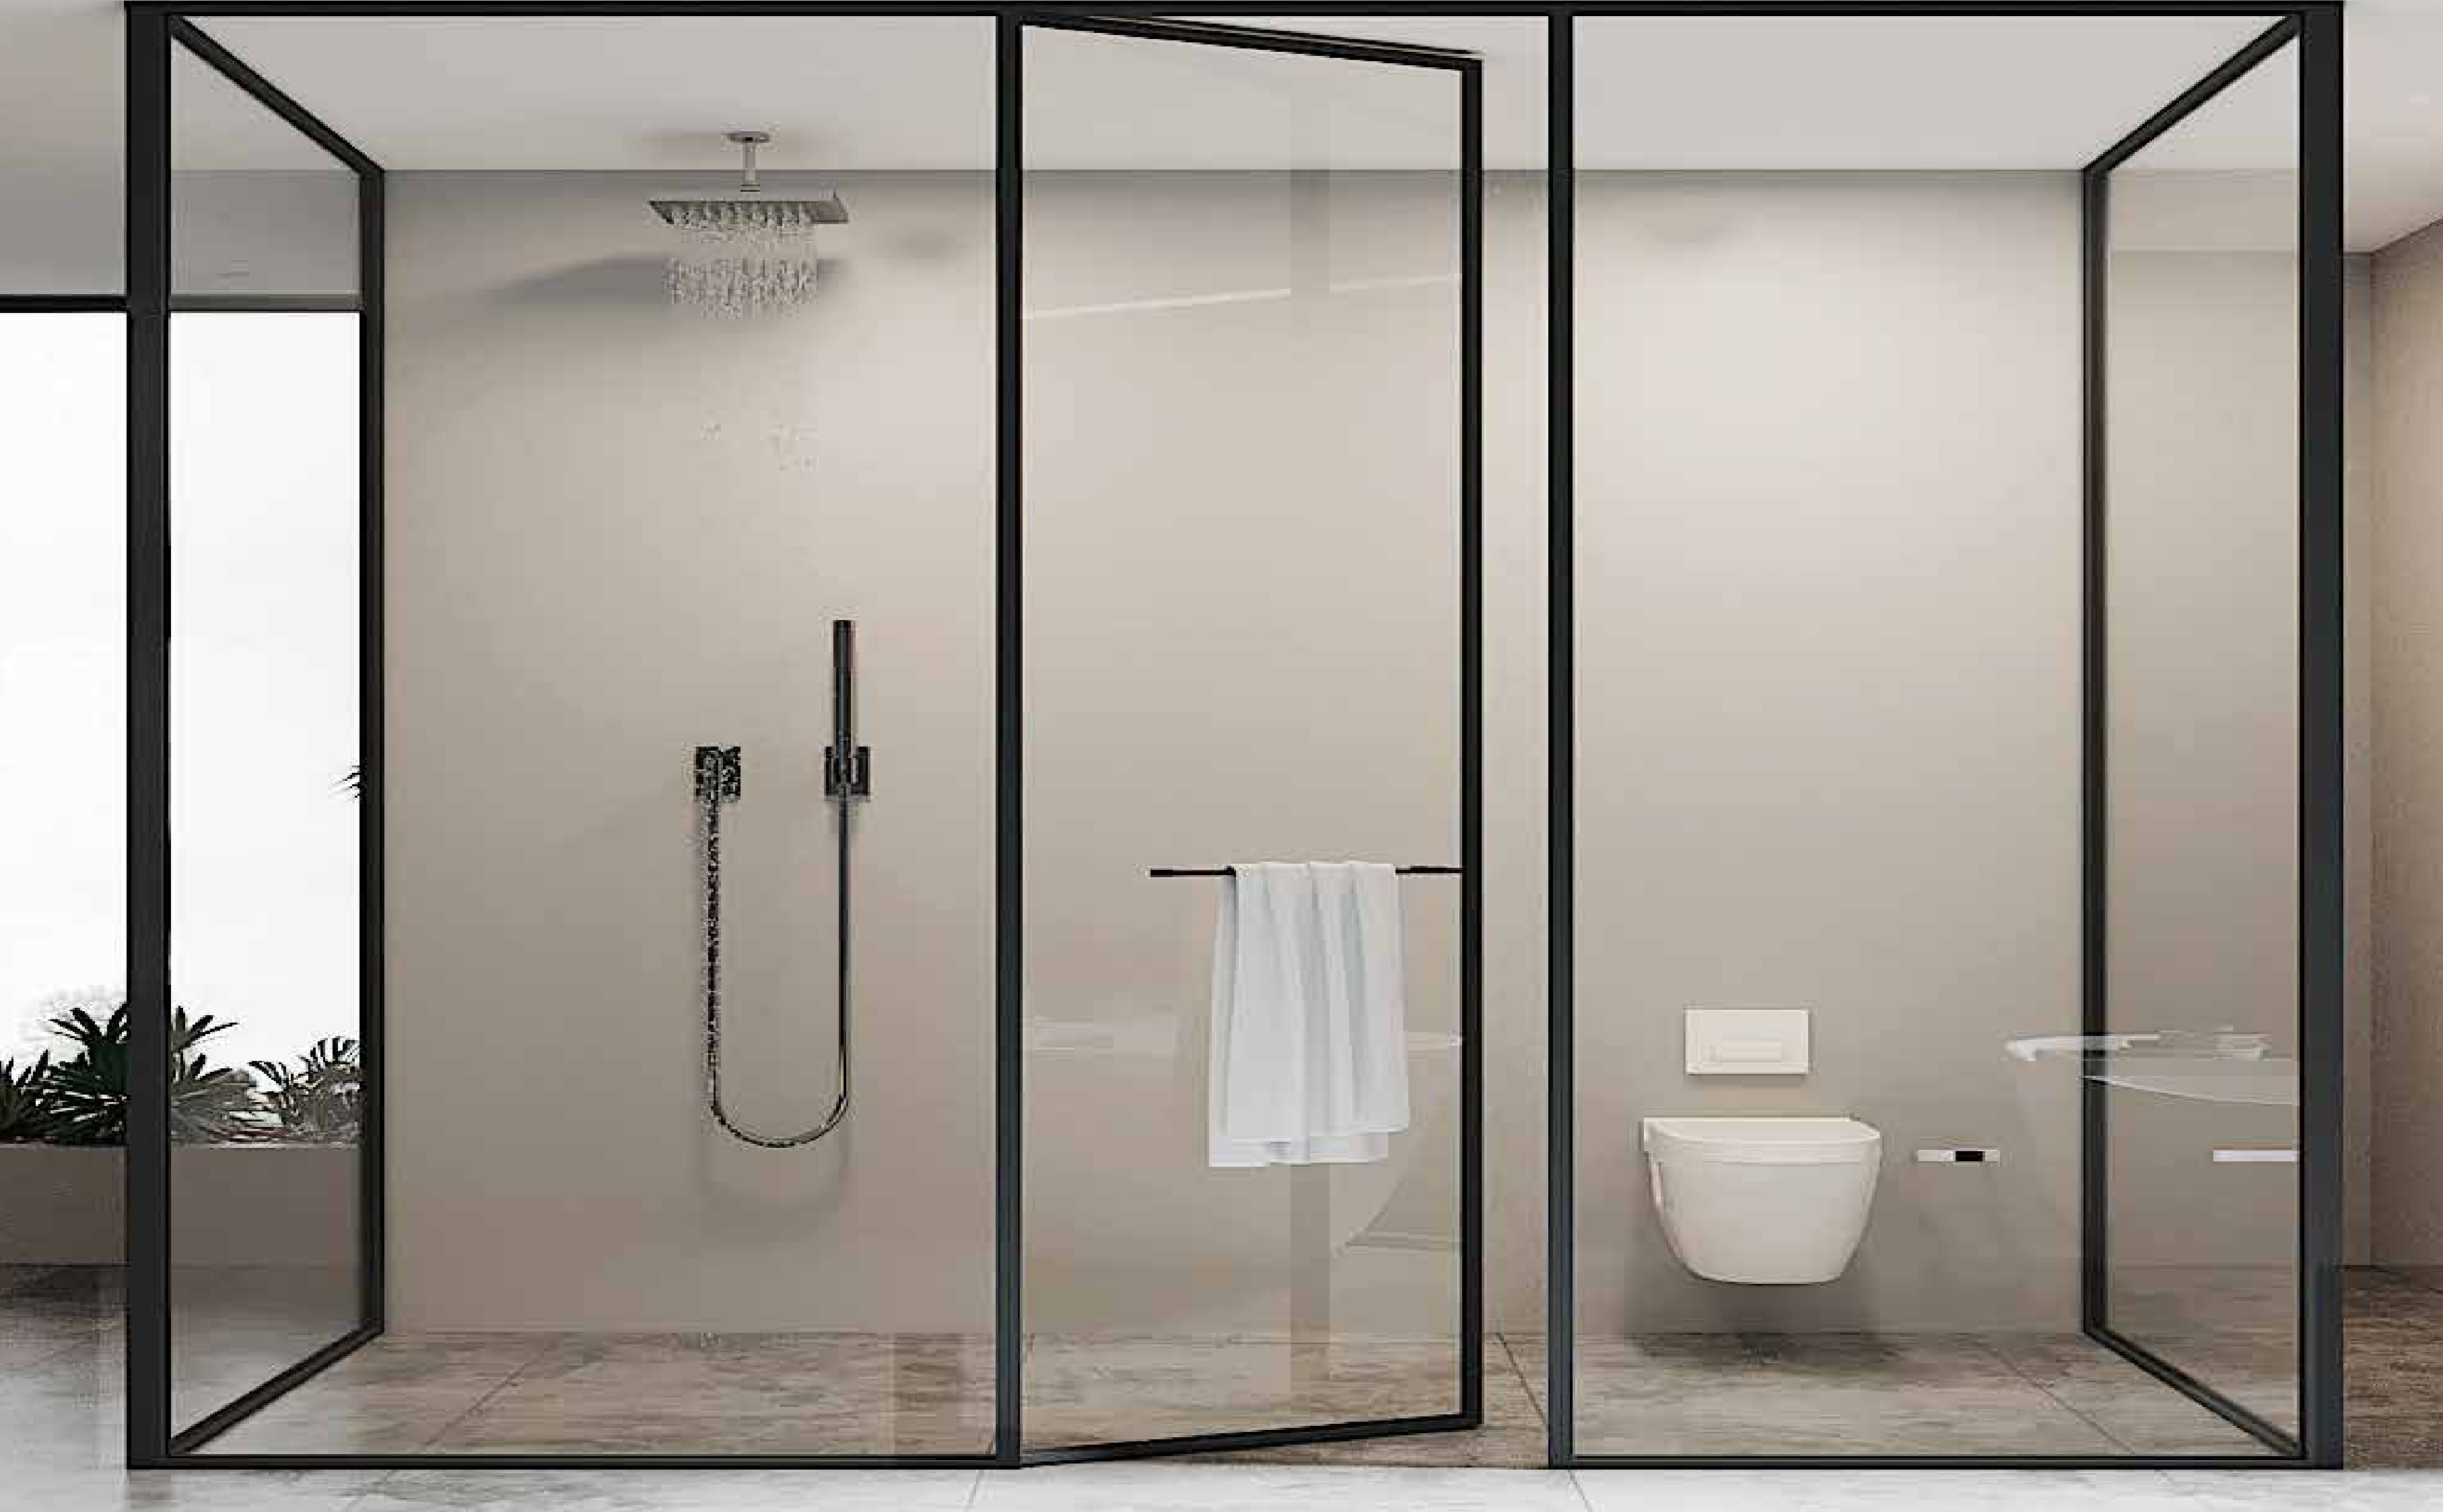

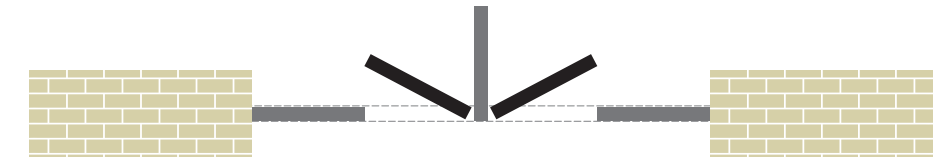

STYLE - SWING (90°, 135°, 180°)

Classic Comfort Meets Modern Functionality

The **Swing Style Shower Cubicle** offers a timeless and practical solution for bathroom spaces that prioritize both accessibility and elegance. Featuring a hinged door system, this design allows for a wide and comfortable entry, making it ideal for residential and hospitality bathrooms alike.

Engineered with precision and crafted with premium materials, the swing door system combines smooth operation with long-term durability.

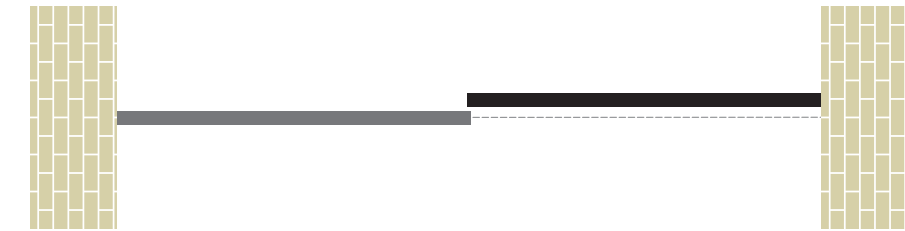

STYLE - T-JUNCTION

Efficient Zoning with Architectural Precision

The **T-Junction Style Partition** is designed to create a seamless intersection between three separate zones, offering a practical and elegant way to organize open-plan interiors. Its distinctive “T” configuration enables a clear spatial hierarchy while maintaining visual openness and connectivity.

Ideal for residential, commercial, and hospitality settings, this partition style enhances both privacy and flow without sacrificing design aesthetics.

STYLE - SLIDING

Sliding Door Shower – Style That Glides

Upgrade your bathroom with the elegance and convenience of a **Sliding Door Shower Enclosure**. Designed to save space while adding a modern touch, these doors glide smoothly on premium tracks, offering easy access and a clutter-free look.

Sliding shower doors are made with toughened safety glass and rust-resistant hardware and combine style, safety, and durability.

Ideal for compact bathrooms, they maximize space while keeping water contained for a dry and comfortable bathing area.
